

## Scouts Plan Trip to Mt. Frazier

Members of Boy Scout Troop No. 1 were entertained last week with a hamburger fry at the home of their assistant Scout Master James McMillen.

Among the Scouts present were Don Kelley, Richard Bentwood, Kurt McMillen, Tommy Hammack, Jerry Attebery, Larry Drury, and David Shinoda.

Following the meal, McMillen discussed plans for the Frazier Mt. snow camp trip to be taken by the boys in February. Also discussed were plans for a summer expedition to Camp Pepperdine, Silver Moccasin Trail. He outlined to the boys the camping, sleeping and eating gear that is needed for such jaunts.

Scout Master Harry F. Marshall thanked McMillen, whose knowledge of the Sierras and outdoor life was appreciated by the scouts attending.

## Supervisors Meet Twice Weekly Now

The five-man board of Los Angeles County supervisors will next week begin their new schedule of twice-weekly meetings, according to local Supervisor Raymond Darby.

In the past the board met only once weekly.

Los Angeles County has become one of the biggest counties in the United States, Darby declared.

"It has become impossible to conduct in one day all the business necessary for its proper functioning," he stated.

"Therefore," he continued, "in the future, all public hearings and discussions which take up so much time at meetings will be held on Thursday of each month instead of at the Tuesday business meeting."

## Charter New Lions Saturday

The newly organized Harbor City-Losita Lions Club will receive its charter Saturday night in a charter party to be held at the Hollywood Riviera Club.

The new Lions group is sponsored by the Torrance Lions Club, of which Milton Isbell is president. Ray Ferrin of Harbor City is being installed as president of the new club.

Saturday's affair will be a combined dinner and business meeting.

## Oldsmobile Unveiled Here Tomorrow

Completely new in frontal appearance and offering other styling changes inside and out as well as many mechanical advances, the 1953 Oldsmobile models are being introduced tomorrow at the showrooms of Cecil Thomas and Sons, 839 Pacific Ave., San Pedro.

Among the important improvements in the new models, according to Thomas, are further increases in efficiency of the "Rock-

et" engine, resulting in increased fuel economy and performance; compression ratio raised to 8 to 1, which also boosts the horsepower; a more efficient 12-volt ignition system; Frigidaire car conditioning that cools the car interior in the warmest weather, and "Pedal-Ease" power brakes to provide faster, safer stops.

Distinguishing the 1953 Oldsmobiles is a new front bumper and grille assembly. The bumper and grille have been gracefully redesigned, with two distinctive oval ornaments serving as supports for the upper bumper bar. The name Oldsmobile is inscribed on this bar in metal letters. Parking lights under the headlights are in new round recesses.

Both the Classic "98" and the Super "88" are enhanced by a new narrow sash, stone shield and decorative chrome trim on the rear fender and quarter panel. This accentuates the long, low lines that characterize the 1953 Oldsmobiles. The rear end of the 1953 Super "88" has higher fenders and a higher contour on the deck lid that emphasize the horizontal lines of the car.

In going from a six-volt to a 12-volt electrical system for 1953, Oldsmobile has obtained higher capacity to meet the increasing demands of the engine and the accessories that have been added in recent years. Improved cold

weather starting and better ignition are two immediate benefits of the 12-volt system. The new 12-volt, 70-ampere battery has 30 per cent greater over-all capacity than the six-volt which it super-

sedes. The new 30-ampere output generator has a third greater capacity. Other new components required of the electrical system for 1953 are the starter, voltage regulator, ignition coil, lights, horns and wiring.
